

Microsoft at HIMSS: Achieve more with AI you can trust

The healthcare industry is transforming, and **Microsoft Cloud for Healthcare** is empowering organizations to accelerate innovation, optimize operations, and deliver exceptional patient care with **AI you can trust**.

Join us at **HIMSS**, March 3-6, 2025, in Las Vegas to explore how AI-powered solutions are driving the future of healthcare.

Visit the Microsoft booth #2221 to learn how you can transform healthcare with AI-powered solutions to:

Safeguard your people, health data, and infrastructure: Help protect and govern your health data across clouds, apps and devices.

Empower your healthcare workforce: Stay focused with AI tools that enhance productivity and automate workflows.

Enhance patient and member experiences: Deliver personalized and connected experiences to improve care management.

Unlock value from clinical and operational data: Realize savings and drive better outcomes through unified data insights.

Accelerate research, discovery, and development: Innovate with data and AI at scale to transform healthcare.

Ways to engage with us

- **Experience healthcare innovation** in action at the Microsoft booth #2221 on the second floor of The Venetian. Discover how AI-powered solutions in Microsoft Cloud for Healthcare can transform your organization—no matter where you are in your AI journey.
- **Learn from Microsoft experts and industry-leading partners** in the in-booth theater. Explore tools that enhance care delivery, optimize workflows, and advance data-driven decision-making to drive better outcomes and sustainable growth.

Explore the Copilot Experience Zone to see how AI-driven tools are streamlining workflows and reducing administrative burden. Take part in demos and theater experiences to learn how Microsoft is empowering clinicians and other healthcare professionals to focus more on patient care.

Explore Microsoft sessions and panels at HIMSS and discover how AI is transforming healthcare.
