

# Using the Microsoft 365 roadmap

This guide helps you navigate the Microsoft 365 roadmap including filter definitions and information on how to share, follow, download, and provide feedback

# Overview

With dozens of apps and features, it can be challenging to keep up with what's new and what's coming soon

That's where the Microsoft 365 roadmap comes in

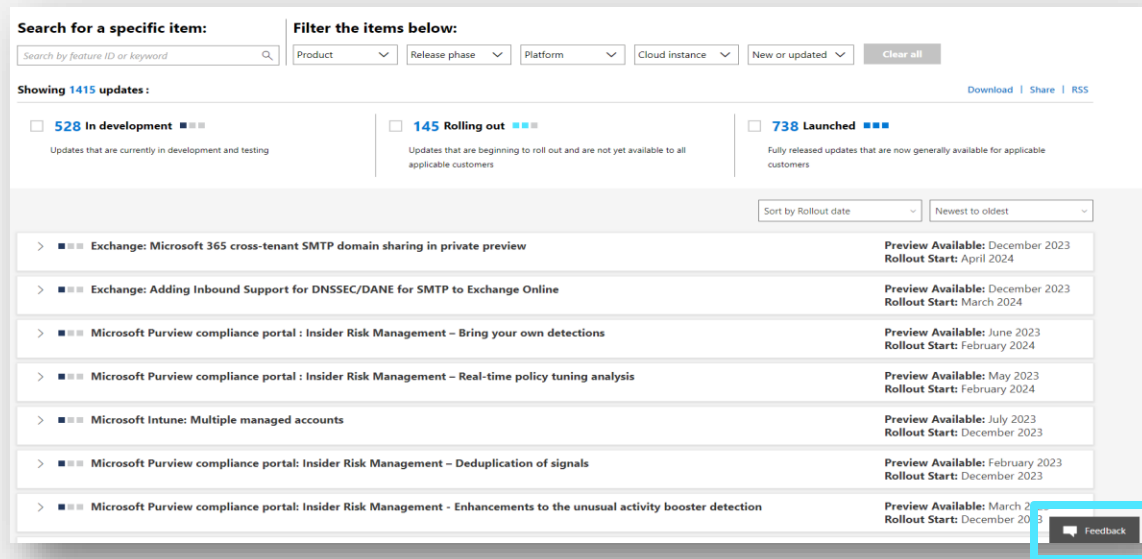

The roadmap is the central location for IT professionals, business decision makers, and anyone else who's interested, to see what's coming

It was created to help you plan, communicate changes, and take full advantage of your Microsoft 365 subscription

# Provide feedback

## About the roadmap site and content

To provide feedback about the site or existing roadmap items, use the feedback button

The screenshot shows the Microsoft roadmap site interface. At the top, there is a search bar labeled "Search for a specific item:" and a filter section labeled "Filter the items below:" with dropdown menus for Product, Release phase, Platform, Cloud instance, and New or updated. Below the filters, it says "Showing 1415 updates:" and provides three filter options: "528 In development", "145 Rolling out", and "738 Launched". A table of updates follows, with columns for update details and dates. A "Feedback" button is highlighted in a red box at the bottom right of the table.

Update Title	Preview Available	Rollout Start
Exchange: Microsoft 365 cross-tenant SMTP domain sharing in private preview	December 2023	April 2024
Exchange: Adding Inbound Support for DNSSEC/DANE for SMTP to Exchange Online	December 2023	March 2024
Microsoft Purview compliance portal: Insider Risk Management – Bring your own detections	June 2023	February 2024
Microsoft Purview compliance portal: Insider Risk Management – Real-time policy tuning analysis	May 2023	February 2024
Microsoft Intune: Multiple managed accounts	July 2023	December 2023
Microsoft Purview compliance portal: Insider Risk Management – Deduplication of signals	February 2023	December 2023
Microsoft Purview compliance portal: Insider Risk Management - Enhancements to the unusual activity booster detection	March 2023	December 2023

If your feedback is for a specific feature, include the feature ID in your comment

## About future product updates

We have a [variety of channels](#) that allow customers to communicate with us including the new [Feedback portal](#)

## Product support

Please [contact Microsoft support](#) if you are having technical issues with any Microsoft product

# Search

Find features by typing in a product, keyword, or feature ID into the search bar

The screenshot displays the Microsoft 365 Admin Center search interface. At the top, there is a search bar labeled "Search for a specific item:" with a placeholder "Search by feature ID or keyword". To the right, under "Filter the items below:", there are several dropdown menus: "Product" (set to Microsoft 365 Admin Center), "Release phase", "Platform", "Cloud instance", and "New or updated". A "Clear all" button is also present. Below the filters, it shows "Showing 4 updates: Microsoft 365 Admin Center Rolling out". There are three filter tabs: "12 In development", "4 Rolling out" (which is selected), and "23 Launched". Below these are sorting options: "Sort by Rollout date" and "Newest to oldest". The main content area shows a search result for "Microsoft 365 admin center: Experience insights for Microsoft 365 admins". The result includes a description, a "Preview Available: August 2022" and "Rollout Start: March 2023" status, and a metadata section with the following details: Feature ID: 93395, Added to roadmap: 8/8/2022, Last modified: 3/30/2023, Product(s): Microsoft 365 Admin Center, Cloud instance(s): Worldwide (Standard Multi-Tenant), Platform(s): Web, and Release phase(s): Preview, General Availability.

## Search tips:

- The best way to find a specific feature is to search by its ID
- Tags can be used in search and are also filter options
- Keywords, such as "SMTP domain", that might be found in the description can be used in search

# Feature cards

Features are displayed on expandable “feature cards”

- >  **Microsoft Viva: Topics in Viva Engage**
- >  **Microsoft Viva: Viva Connections Customer Facing Analytics**
- ∨  **Microsoft Teams: Viva Connections for your Frontline Teams members**

Frontline employees with an F license will have an out of box Viva Connections experience tailored to their frontline needs. This experience includes a dashboard with relevant frontline cards such as Tasks, Shifts, Approvals, and Top news.

**Feature ID:** 99706  
**Added to roadmap:** 10/3/2022  
**Last modified:** 3/30/2023  
**Product(s):** Microsoft Viva, Microsoft Teams  
**Cloud instance(s):** Worldwide (Standard Multi-Tenant)  
**Platform(s):** Web  
**Release phase(s):** Preview, Targeted Release, General Availability

 
- >  **Microsoft Viva: Viva Insights app in Teams with personal insights for GCC-H**
- >  **Microsoft Viva: Viva Insights app in Teams with personal insights for DoD**

# Feature cards

Expand the feature card to explore more details such as feature ID, description, cloud instance, etc.

The screenshot shows a feature management interface. At the top, there is a search bar labeled "Search for a specific item:" with the placeholder "Search by feature ID or keyword". To the right, a "Filter the items below:" section contains several dropdown menus: "Product" (set to "Product"), "Release phase", "Platform", "Cloud instance", and "New or updated". A "Clear all" button is also present. Below the filters, it says "Showing 15 updates: Microsoft Viva (with a plus icon) Rolling out (with a plus icon)". There are links for "Download", "Share", and "RSS".

Three status filters are shown: "66 In development" (with a minus icon), "15 Rolling out" (checked, with a plus icon), and "46 Launched" (with a plus icon). Each filter has a brief description of the update status.

At the bottom right, there are two dropdown menus for sorting: "Sort by Rollout date" and "Newest to oldest".

The main content area displays a list of feature cards. The first card is "Microsoft Viva: Topics in Viva Engage" with "Preview Available: December 2022" and "Rollout Start: March 2023". The second card is "Microsoft Viva: Viva Connections Customer Facing Analytics" with "Rollout Start: March 2023". The third card is expanded, showing "Microsoft Teams: Viva Connections for your Frontline Teams members" with "Preview Available: November 2022" and "Rollout Start: March 2023". The expanded card includes a description, "Feature ID: 99706", "Added to roadmap: 10/3/2022", "Last modified: 3/30/2023", and a list of tags: "Product(s): Microsoft Viva, Microsoft Teams", "Cloud instance(s): Worldwide (Standard Multi-Tenant)", "Platform(s): Web", and "Release phase(s): Preview, Targeted Release, General Availability".

Feature cards are easy to expand or collapse depending on the level of details you want to see

Feature status

Tags are organized by category (Product, Cloud instance, Platform, Release phase)

Sort feature cards by preview or rollout date

And by newest to oldest, or oldest to newest

# Filters

## Selecting filters

Narrow down feature cards by setting filters – Product, Release Phase, Platform, Cloud Instances, New or updated features, Status

When a filter is selected, you will see filter selections listed out above the status bar

The screenshot displays a user interface for filtering feature updates. It includes a search bar, a filter section with dropdown menus for Product, Release phase, Platform, Cloud instance, and New or updated, and a 'Clear all' button. Below the filters, a status bar shows 'Showing 69 updates' with active filters for 'In development', 'Microsoft Teams', and 'Worldwide (Standard Multi-Tenant)'. At the bottom, three status categories are listed: '69 In development', '58 Rolling out', and '185 Launched', each with a description of the update status.

**Search for a specific item:** Search by feature ID or keyword

**Filter the items below:** Product Release phase Platform Cloud instance New or updated Clear all

Showing 69 updates: In development Microsoft Teams Worldwide (Standard Multi-Tenant) Download | Share | RSS

- 69 In development** ■■■  
Updates that are currently in development and testing
- 58 Rolling out** ■■■  
Updates that are beginning to roll out and are not yet available to all applicable customers
- 185 Launched** ■■■  
Fully released updates that are now generally available for applicable customers

# Filters

## Products

A list of Microsoft 365 products, sorted alphabetically

If multiple products are selected, results will show all features tagged with any of the selected products

## Platform

Where applicable, features will be tagged with one or more platforms

## Release phase

See resources below for more information about release options

- [Microsoft 365 Change Guide](#)

Updated label

## Preview is now Preview Available

The "Preview" date label now reads "Preview Available" and indicates "In development" status

## GA is now Rollout Start

"GA" (General Availability) label now reads "Rollout Start"

- Roadmap item may start "Rolling Out" on any day in the designated month
- Status changes to "Rolling Out" and then "Launched"
- Status may go directly to "Launched" if completely deployed
