

Choctaw Nation of Oklahoma

Based in Oklahoma, Choctaw Nation has some 230,000 members. Until recently, however, most member services were provided through a laborious, paper-based process. Now tribal web portal, Chahta Achvffa ("One Choctaw"), allows self-service and improved access to member benefits.

1. A member securely logs into the Chahta Achvffa Portal on their cell phone or laptop in any location at any time of day.

2. Once logged in they can access the Portal, which is hosted in a sovereign controlled Azure data center.

3. The Portal remembers the member and their information so there is no re-entry.

4. The Portal hosts a myriad of Choctaw Nation programs: summer camps, storm shelters, lawn care, etc.. And links 3rd party applications with the Nation's programs and tools.

5. Member is able to quickly access and modify services.
