Methodology
A Business Value White Paper, commissioned by Microsoft September 2022 | Doc. #US49453722

IDC Research Study conducted from surveys and interviews between December 2021 – February 2022. All respondents were IT decision-makers at large organizations (250-5000+ employees), representing organizations from the United States, Australia, India, Spain, France, United Kingdom, New Zealand, and Germany. Cost & Savings findings based on average cost and time estimates provided directly by respondents; actual costs and savings may vary based on your specific Device Mix and deployment.

Data point derived from 17 in-depth interviews. All other data points derived from 800 survey results (700 Surface organizations with at least 150 Surface Laptops and 2-in-1 Tablets available since 2019, 100 non-Surface organizations). Surface Residual Value adjusted by IDC to reflect average after 36 months.
