

**UK Product Security and Telecommunications Infrastructure
(Security Requirements for Relevant Connectable Products)
Statement of Compliance**

We, Microsoft Corporation, as the manufacturer, declare in our opinion and under our sole responsibility, that Surface Laptop 5G for Business 7th Edition, Model Number 2119, complies with the applicable requirements specified in Schedule 1 of the UK Product Security and Telecommunications Infrastructure – Security Requirements for Relevant Connectable Products (2023).

The defined support period for Surface Laptop 5G for Business 7th Edition, Model Number 2119, at the time the product was initially placed on the market on August 26, 2025, is August 26, 2031.

Security updates for the device are provided through the applicable Windows Operating System updates provided to users at a regular cadence. Security updates include device driver and firmware updates.

Surface Devices Driver and Firmware lifecycle updates and support periods are published by Microsoft at aka.ms/SurfaceEOS.

Windows lifecycle updates and support periods are published by Microsoft at aka.ms/windows-lifecycle.

Security vulnerabilities should be reported to the aka.ms/msrc-regulatory. Users may submit a report without signing in by selecting ‘Generate Token’ and following the instructions provided.

Microsoft will review submissions to determine whether they constitute a aka.ms/definition-of-security-vulnerability and assign validated reports to the relevant product engineering team. Initial triage typically occurs within two U.S. business days. Where users elect to receive communications, updates will be provided during the triage process.
